 - ii. June 26 CapMetro votes on Phase 2 of Project Connect This is a plan for dedicated access transport. Not to be confused with Connections2025 which is expanding rapid bus service. Projectconnect.com for info and comment at feedback@projectconnect.com
5. Issues and Interests (Old Business)
 - a. ¼ Cent Bridge Update – Still seeking info on whether it will be combined with current Del Curto work. Probably not.

RPP Thornton Road Plan for Oltorf to 2400 Thornton – Heath Marr had a brief meeting at Austin Trans Dept on Tuesday with Joseph our project manager. Our 2 week public comment period ended last Sunday. All the signatures have been validated. Now our case has been transferred over to "engineering" whose staff will do the necessary parking studies - counting parked cars and comparing them against the license plates we provided on the petition to verify it's not "us" parking there. I also asked them to make our hours match those on Havenside (theirs were recently extended) and they said they can do that without additional input from the other residents which is good.

- b. South Lamar Mitigation Plan Implementation
 - i. Del Curto Storm Drainage Project Design 2017 Potential completion 2020 if funding continues
 - c. South Lamar Corridor Study Plans – <http://austintexas.gov/SouthLamar>
